SELECTED ECONOMIC CHARACTERISTICS

2010-2014 American Community Survey 5-Year Estimates

Note: This is a modified view of the original table.

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Data and Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

Subject	Essex County, Massachusetts		North Andover town, Essex County, Massachusetts		
	Estimate	Percent	Estimate	Margin of Error	Percent
EMPLOYMENT STATUS					
Population 16 years and over	607,846	607,846	22,872	+/-289	22,872
In labor force	412,199	67.8%	16,072	+/-487	70.3%
Civilian labor force	411,885	67.8%	16,057	+/-489	70.2%
Employed	377,044	62.0%	14,787	+/-473	64.7%
Unemployed	34,841	5.7%	1,270	+/-216	5.6%
Armed Forces	314	0.1%	15	+/-24	0.1%
Not in labor force	195,647	32.2%	6,800	+/-451	29.7%
Civilian labor force	411,885	411,885	16,057	+/-489	16,057
Percent Unemployed	(X)	8.5%	(X)	(X)	7.9%
Females 16 years and over					
In labor force	202,792	63.3%	7,419	+/-398	63.5%
Civilian labor force	202,777	63.3%	7,419	+/-398	63.5%
Employed	187,345	58.5%	6,792	+/-328	58.1%
Own children under 6 years					
All parents in family in labor force	35,081	69.4%	1,308	+/-265	69.2%
Own children 6 to 17 years					
All parents in family in labor force	85,953	75.8%	3,837	+/-402	79.4%
COMMUTING TO WORK					
Workers 16 years and over	369,455	369,455	14,577	+/-466	14,577
Car, truck, or van -- drove alone	279,458	75.6%	12,058	+/-593	82.7%
Car, truck, or van -- carpooled	29,558	8.0%	911	+/-310	6.2%
Public transportation (excluding taxicab)	20,515	5.6%	403	+/-137	2.8%
Walked	13,185	3.6%	350	+/-125	2.4%
Other means	7,426	2.0%	90	+/-45	0.6%
Worked at home	19,313	5.2%	765	+/-179	5.2%
Mean travel time to work (minutes)	28.5	(X)	30.8	+/-1.4	(X)
OCCUPATION					

Subject	Essex County, Massachusetts		North Andover town, Essex County, Massachusetts		
	Estimate	Percent	Estimate	Margin of Error	Percent
Civilian employed population 16 years and over	377,044	377,044	14,787	+/-473	14,787

Unrelated individuals 15 years and over	+/-4.7

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

Workers include members of the Armed Forces and civilians who were at work last week.

Occupation codes are 4-digit codes and are based on Standard Occupational Classification 2010.

Industry codes are 4-digit codes and are based on the North American Industry Classification System (NAICS). The Census industry codes for 2013 and later years are based on the 2012 revision of the NAICS. To allow for the creation of 2010-2014 tables, industry data in the multiyear files (2010-2014) were recoded to 2013 Census industry codes. We recommend using caution when comparing data coded using 2013 Census industry codes with data coded using Census industry codes prior to 2013. For more information on the Census industry code changes, please visit our website at <http://www.census.gov/people/io/methodology/>.

Logical coverage edits applying a rules-based assignment of Medicaid, Medicare and military health coverage were added as of 2009 -- please see http://www.census.gov/hhes/www/hlthins/publications/coverage_edits_final.pdf for more details. The corresponding 2008 data table in American FactFinder does not incorporate these edits and is therefore not comparable to this table in 2009, 2010, 2011, or 2012. Select geographies of 2008 data comparable to the 2009, 2010, 2011, and 2012 tables are accessible at <http://www.census.gov/hhes/www/hlthins/data/acs/2008/re-run.html>.

The health insurance coverage category names were modified in 2010. See ACS Health Insurance Definitions for a list of the insurance type definitions.

While the 2010-2014 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.
