

DP02 | SELECTED SOCIAL CHARACTERISTICS IN THE UNITED STATES

2010-2014 American Community Survey 5-Year Estimates

Note: This is a modified view of the original table.

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Data and Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

Subject	Essex County, Massachusetts		Salisbury town, Essex County, Massachusetts	
	Estimate	Percent	Estimate	Percent
HOUSEHOLDS BY TYPE				
Total households	286,896	286,896	3,297	3,297
Family households (families)	191,407	66.7%	2,267	68.8%
With own children under 18 years	85,874	29.9%	736	22.3%
Married-couple family	138,192	48.2%	1,742	52.8%
With own children under 18 years	57,940	20.2%	503	15.3%
Male householder, no wife present, family	13,075	4.6%	178	5.4%
With own children under 18 years	5,508	1.9%	73	2.2%
Female householder, no husband present, family	40,140	14.0%	347	10.5%
With own children under 18 years	22,426	7.8%	160	4.9%
Nonfamily households	95,489	33.3%	1,030	31.2%
Householder living alone	79,431	27.7%	741	22.5%
65 years and over	32,722	11.4%	305	9.3%
Households with one or more people under 18 years	94,285	32.9%	854	25.9%
Households with one or more people 65 years and over	79,821	27.8%	1,013	30.7%
Average household size	2.58	(X)	2.56	(X)
Average family size	3.17	(X)	2.99	(X)
RELATIONSHIP				
Population in households	739,766	739,766	8,445	8,445
Householder	286,896	38.8%	3,297	39.0%
Spouse	138,176	18.7%	1,756	20.8%
Child	229,860	31.1%	2,147	25.4%
Other relatives	47,680	6.4%	601	7.1%
Nonrelatives	37,154	5.0%	644	7.6%
Unmarried partner	17,924	2.4%	279	3.3%
MARITAL STATUS				
Males 15 years and over	293,039	293,039	3,692	3,692
Never married	105,344	35.9%	1,291	35.0%
Now married, except separated	151,241	51.6%	1,908	51.7%

Subject	Essex County, Massachusetts		Salisbury town, Essex County, Massachusetts	
	Estimate	Percent	Estimate	Percent
Separated	4,975	1.7%	78	2.1%
Widowed	7,453	2.5%	28	0.8%
Divorced	24,026	8.2%	387	10.5%
Females 15 years and over	325,324	325,324	3,659	3,659
Never married	98,691	30.3%	979	26.8%
Now married, except separated	149,893	46.1%	1,858	50.8%

With a computer	(X)	(X)	(X)	(X)
With a broadband Internet subscription	(X)	(X)	(X)	(X)

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

Fertility data are not available for certain geographic areas due to problems with data collection. See Errata Note #92 for details.

Methodological changes to data collection in 2013 may have affected language data for 2013. Users should be aware of these changes when using multi-year data containing data from 2013.

The Census Bureau introduced a new set of disability questions in the 2008 ACS questionnaire. Accordingly, comparisons of disability data from 2008 or later with data from prior years are not recommended. For more information on these questions and their evaluation in the 2006 ACS Content Test, see the Evaluation Report Covering Disability.

While the 2010-2014 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.
